Physique, Health & Nature

Born under the Scorpio sign, you will be blessed with an impressive personality comprising a well knit, muscular body tending to stoutness, long arms and short, curly hair. The overall picture you present is that of a self-assured individual who brooks no nonsense from any quarter.

Since Scorpio denotes generative organs, you will have to be particularly careful, especially from the middle age.

You have two sides to your nature. You don't believe in cutting into others path unnecessarily, as you are primarily interested only in your own affairs. But if others try to get funny with you, then you will make them repent their actions by stinging like a scorpion. You are quick, shrewd and a keen individual. You have a penetrative mind and incisive judgement regarding men and matters. What can serve you best in your pursuits is your strong, forceful mind which has the ability to take its own decisions without having to rely on others guidance. You have very strong likes and dislikes. If you favour anything you will back it to the very last. But if you are averse to something, then you will spare no effort to demolish it. You will be a very good friend to a true friend, but a dreadful adversary to a foe. Since you lay great stress on enjoying sex, your image may be sullied.

You are prone to disease like insomnia and somnambulism. So take due precautions.
